

CABINET ASSEMBLY

If you have purchased a BLAST-OFF Fireworks Loan-A-Cabinet™ Display Fixture, congratulations! Grab a screwdriver, a tape measure, a reliable assistant, and follow the simple set-up instructions below to effortlessly assemble your BLAST-OFF Fireworks Loan-A-Cabinet™ display fixture.

COUNTER-TOP CABINET

12 x Plastic Shelf Pins

3 x Cabinet Shelves

1 x Mesh Display Cage

Step 1: Install the top shelf

Begin with the top shelf. Ask your assistant for help positioning the top shelf inside the display unit. Use a tape measure to ensure that the shelf is positioned at equal heights on both sides of the cabinet. Ask your assistant to hold the shelf steady while you insert the plastic shelf clips from the exterior of the cabinet, though the exterior mesh and into the pre-drilled holes on each shelf.

Step 2: Continue installing shelves

Repeat step 1 until all shelves are firmly secured in the cabinet.

Step 3: Load your cabinet

Load your counter-top cabinet and watch your sales EXPLODE! The diagram below shows recommended merchandising positions.

Floral Shells, Novelties

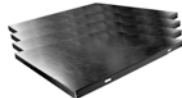

Roman Candles, Barrages

Cakes

STANDARD CABINET

16 x Plastic Shelf Pins*

4 x Cabinet Shelves*

4 x Screw-in Feet

1 x Mesh Display Cage

Step 1: Install legs and level the cabinet

Your cabinet is equipped with four screw-in feet. These screw-in feet install on the bottom of your cabinet in four pre-tapped holes. Ensure your cabinet stands level by adjusting the feet.

Step 2: Install the top shelf

Begin with the top shelf. Ask your assistant for help positioning the top shelf inside the display unit. Use a tape measure to ensure that the shelf is positioned at equal heights on both sides of the cabinet. Ask your assistant to hold the shelf steady while you insert the plastic shelf clips from the exterior of the cabinet, though the exterior mesh and into the pre-drilled holes on each shelf.

Step 3: Continue installing shelves

Repeat step 2 until all shelves are firmly secured in the cabinet.

Step 4: Load your cabinet

Load your fireworks display cabinet and watch your sales EXPLODE! The diagram above shows recommended merchandising positions.

* If you have received a Loan-A-Cabinet™ Fixture with pre-welded shelves, please proceed to step 4.

Roman Candles, Novelties

Barrages, Brazilian Tubes

Barrages, Sound Shells, Fountains

Small Floral Shells, Mines, Cakes

Large Floral Shells, Large Cakes

CABINET ASSEMBLY

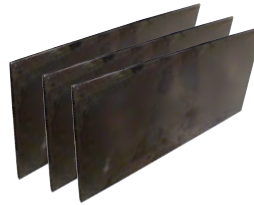

DOUBLE-WIDE CABINET

6 x Screw-in Feet

15 x Shelf Brackets

3 x Cabinet Shelves

1 x Mesh Display Cage

Step 1: Install legs and level the cabinet

Your cabinet is equipped with six screw-in feet. These screw-in feet install on the bottom of your cabinet in six pre-tapped holes. Ensure your cabinet stands level by adjusting the feet.

Step 2: Install top shelf

When installing the cabinet shelves, it is recommended that you begin with the top shelf:

- ▶ Install the three rear shelf brackets for the top shelf.
- ▶ Ask your assistant for help inserting the top shelf into the cabinet, resting it on the installed rear shelf brackets. Please note that the shelf should be inserted such that the shelf strengthener (metal bar welded to bottom of shelf) faces the front of the cabinet.
- ▶ Install the two front shelf brackets.

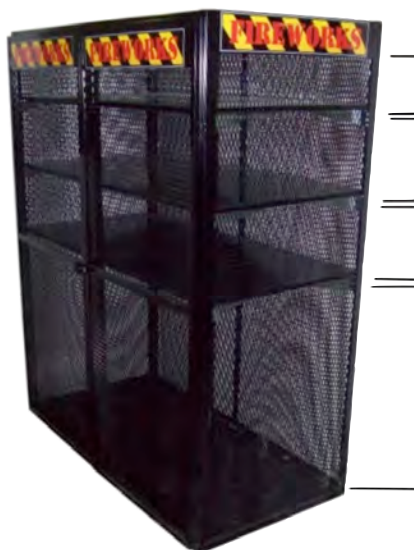

After installing the front shelf brackets, lower the front of the shelf such that it rests on all of the installed shelf brackets, and is level in the cabinet.

Step 3: Continue installing shelves

Repeat step 2 until all shelves are firmly secured in the cabinet. It is recommended that you retain the help of your assistant throughout the set-up of your display unit.

Step 4: Load your cabinet

Load your double-wide display cabinet and watch your sales EXPLODE! The diagram below shows recommended product merchandising positions.

Roman Candles, Novelties

Barrages, Brazilian Tubes, Fountains

Floral Shells, Mines, Cakes

Family Packs, Large Cakes

Double-Wide cabinet units are completely customizable.

Arrange the shelves to work best with your fireworks selection!
