

## BLAST-OFF FIREWORKS

### SOUND SHELLS

Single shot items which produce aerial screeches and very loud bangs.

### FOUNTAINS

Low-level items which emit showers of sparks, similar to a volcano. Some fountains include whistles, crackers, and color changes.

### ROMAN CANDLES

Small or medium diameter tube-type items. Roman Candles emit multiple shots of individual flaming stars.

### CAKES

Multiple tube items designed as rapid-firing finale pieces. Cakes emit amazing effects including floral bursts, cascades, and color changing flowers.

### NOVELTIES

Traditional low-level and ground-based items designed for amusement. Examples include wheels, sparklers, ground spinners, and loud whistles.

### BRAZILIAN TUBES

Medium and large diameter tube items containing a mix of effects, including floral bursts, loud bangs, and whistles.

### BARRAGES

Multiple Roman Candles combined into a single unit. Barrages allow for a large number of shots and various effects.

### MINES & FLORALS

Medium and large diameter tube items held vertical with plastic bases. Various effects from high altitude floral bursts to stars and bouquets.
